0452021489.pdfQ: How to fix incorrect text alignment I'm new to HTML and CSS, and I'm having some issues with text alignment. I'm trying to create a login page with links for email and a password. I want the text to be centred and in the same line. The problem is when the page is resized, the links do not stay in the same line. Here is a link to the code Here is a code sample body { font-family: Arial, Helvetica, sans-serif; padding: 0px; margin: 0px; background-color: #406073; color: #f5f5f5; font-size: 12px; line-height: 1.4; } navbar { margin-top: -16px; padding: 10px; navbar a { text-decoration: none; navbar a:hover { color: #fc5302; navbar.dropdown-menu { display: none; font-family: 'Ubuntu', sans-serif; line-height: 20px; navbar.dropdown-menu li a { navbar.dropdown-menu li a:hover { @media (max-width: 1200px) { navbar a { font-size: 12px; font-weight: bold; }
