How to Make a Time Machine in Minecraft. I'm a big time traveler. I love to play Minecraft and every since I was very little I would build things that only I could see or find at that moment in time. Learn how to build an amazing time machine in Minecraft. While building a time machine you will need 4 materials, a wheel, a clock, a button, a bed, a white board, and a portal. Minecraft: Pocket Edition. SimCity 4, SimCity 5. SimCity 4, 1. In order to make a time machine in Minecraft you need to find several ingredients. Q: how to make list box display integer value based on item selected I have a listbox where the user can select an item. I want to display the amount of that item in the textbox and in the listbox (each item in a separate listbox) I want the listbox item to be based on what the user selects. For example if the user selects "item1" in the listbox, I want "item1" displayed in the textbox, and in the listbox I want "item1" displayed. I have the values for the listbox items in the database as integers This is how I retrieve the values: SELECT [Items_Table].Item_ID, [Items_Table].Item_Name, [Items_Table].Item_Amount, [Items_Table].Item_Amount_Unit FROM [Items_Table] This is how I create the listbox: public void lstItems() { ListItemCollection items = new List 82157476af
